

YEAR 8 TEXTILES CURRICULUM 2017

Week	Class Activity & Learning Focus	Victorian Curriculum Substrand Levels 7-8
1	Cord Keeper – Design Process: draw designs, make paper templates and cut fabric.	Creating Designed Solutions: Generate, develop and test design ideas, plans and processes using appropriate technical terms and technologies including graphical representation techniques (VCDSCD050).
	Sewing Machine Competency Written Test – review of Year 7	Creating Designed Solutions (Evaluate): Test criteria for success in evaluating processes. (VCDSCD052)
	Sewing Machine Competency Worksheets	Creating Designed Solutions (Producing): Effectively and safely use a broad range of materials, components, tools, equipment and techniques to produce designed solutions (VCDSCD051)
2	Sewing Machine Competency Worksheets (continued)	Creating Designed Solutions (Evaluate): Independently develop criteria for success to evaluate design ideas, processes and solutions and their sustainability (VCDSCD052)
	Cord Keeper – construction using a variety of sewing methods.	
	Cork Keeper – Evaluation of finished item.	
3	Tie-Dyed Bag – Design Process: draw designs in colour	Creating Designed Solutions (Generate): Generate, develop and test design ideas, plans and processes using appropriate technical terms including graphical representation techniques (VCDSCD050).
	Tie-Dyed Bag – Dye the fabric and set the colour.	Creating Designed Solutions (Producing): Effectively and safely use a broad range of materials, components, tools, equipment and techniques to produce designed solutions (VCDSCD051)
4	Tie-Dyed Bag – Sew the drawstring bag using the sewing machine.	Creating Designed Solutions (Evaluate): Independently develop criteria for success to evaluate design ideas, processes and solutions. (VCDSCD052)
	Tie-Dyed Bag – Evaluation of finished item.	
5	Research a Designer or Fashion Brand and present findings in a poster format	Technologies Contexts (Technologies and Society): Investigate the ways in which designed solutions evolve locally, nationally, regionally and globally through the creativity, innovation and enterprise of individuals and groups (VCDSTS044)
6	Macramé Pot Plant Holder – Design Process – draw your design	Creating Designed Solutions (Generate): Generate, develop and test design ideas, plans and processes using appropriate technical terms including graphical representation techniques (VCDSCD050).
	Macramé Pot Plant Holder – Construct the holder	Creating Designed Solutions (Producing): Effectively and safely use a broad range of materials, components, tools, equipment and techniques to produce designed solutions (VCDSCD051)
	Macramé Pot Plant Holder – Evaluation of finished item	Creating Designed Solutions (Evaluate): Independently develop criteria for success to evaluate design ideas and processes. (VCDSCD052)
	Embellished Artwork – Design Process – Draw your design	Creating Designed Solutions (Investigation): Critique needs for designing. Analyse and select from a range of materials, components, tools, equipment and processes to develop design ideas. (VCDSCD049)
7	Embellished Artwork – Paint/Colour the design onto fabric and use a variety of resources, including the sewing machine to embellish the design.	Materials and technologies specialisations: Analyse ways to create designed solutions through selecting and combining characteristics and properties of materials, tools and equipment (VCDSTC048) Creating Designed Solutions (Producing): Effectively and safely use a broad range of materials, components, tools, equipment and techniques to produce designed solutions (VCDSCD051)
	Embellished Artwork – Final Evaluation of finished item	Creating Designed Solutions (Evaluate): Independently develop criteria for success to evaluate design ideas and processes. (VCDSCD052)

8	Weaving – Plan a tabby weave design using a variety of resources. Construct small woven item.	Creating Designed Solutions (Generate): Generate, develop and test design ideas, plans and processes using appropriate technical terms and technologies including graphical representation techniques (VCDSCD050).
	Weaving – Evaluation of finished item	Creating Designed Solutions (Evaluate): Independently develop criteria for success to evaluate design ideas, processes and solutions and their sustainability (VCDSCD052)
9 -10	Own up-cycled item -select from Batik Dying, Pencil Case, Denim Bag, Pom Pom Garland, Pet Bed or own textiles project using recycled resources.	Creating Designed Solutions (Producing): Effectively and safely use a broad range of materials, components, tools, equipment and techniques to produce designed solutions (VCDSCD051)
	Final Evaluation of finished items	Creating Designed Solutions (Evaluate): Independently develop criteria for success to evaluate design ideas, processes and solutions and their sustainability (VCDSCD052)
	Submit Designer/Brands Research Poster
