

YEAR 7 TEXTILES CURRICULUM 2018

Week	.e ⁵	Class Activity & Learning Focus	Victorian Curriculum Substrand Levels 7-8
1	Engage	Stitch Practise – hand stitch your name	Creating Designed Solutions (Producing): Effectively and safely use a broad range of materials, components, tools and equipment to create designed solutions (VCDSCD051)
1-2	explain	Felt Pin Cushion or Monster Design	Creating Designed Solutions: Generate, develop and test design ideas, plans and processes using appropriate technical and graphical representation techniques (VCDSCD050).
	Explore	Felt Pin Cushion or Monster - sewing and construction	Creating Designed Solutions (Producing): Effectively and safely use a broad range of materials, components, tools and equipment to create designed solutions (VCDSCD051)
	evaluate	Felt Pin Cushion or Monster – finished item evaluation	Creating Designed Solutions (Evaluate): Test criteria for success in evaluating processes. (VCDSCD052)
	explain	How to use a sewing machine instructions	Creating Designed Solutions (Producing): Effectively and safely use a broad range of tools, equipment and techniques (VCDSCD051)
	explain	Sewing Machine Competency Worksheets	Creating Designed Solutions (Producing): Effectively and safely use a broad range of materials, components, tools and equipment to create designed solutions (VCDSCD051)
3-4	evaluate	Applique pencil case – Design Process – draw your design	Creating Designed Solutions (Generate): Generate, develop and test design ideas, plans and processes using appropriate technical and graphical representation techniques (VCDSCD050).
	explore	Applique pencil case – Construction Learn how to insert a zip.	Creating Designed Solutions (Producing): Effectively and safely use a broad range of materials, components, tools and equipment to create designed solutions (VCDSCD051)
	evaluate	Applique pencil case – Evaluation of finished item	Creating Designed Solutions (Evaluate): Independently develop criteria for success to evaluate design ideas, plans and processes (VCDSCD052)
5-6	Explore engage	Wool4Schools Competition: Design a multifunctional outfit to meet competition criteria. Evaluate wool industry in Australia and the importance for our economy.	Technologies Contexts (Technologies and Society): Investigate the ways in which designed solutions evolve locally and globally, the creativity, innovation and enterprise of individuals and groups (VCDSTS044) Creating Designed Solutions (Investigation): Critique needs for designing. Analyse and select from a range of materials, tools and equipment (VCDSCD049) Technologies Context: Analyse how food and fibre are produced when creating managed environments and how they are used (VCDSTC046)
7	explore	Block Printing – plan two complementary designs for fabric printing. Carve designs in soft disc.	Creating Designed Solutions (Generate): Generate, develop and test design ideas, plans and processes using appropriate technical and graphical representation techniques (VCDSCD050). Materials and technologies specialisations: Analyse ways to create designed solutions through selecting and combining materials, tools and equipment (VCDSTC048)
	engage	Block printing onto calico to create a placemat or fabric to sew a simple bag.	Creating Designed Solutions (Producing): Effectively and safely use a broad range of materials, components, tools and equipment to create designed solutions (VCDSCD051)
	evaluate	Block printing - evaluation of finished item	Creating Designed Solutions (Evaluate): Independently develop criteria for success to evaluate design ideas, plans and processes (VCDSCD052)
8	explore	Denim Bag – Plan a design using recycled jeans and resources.	Creating Designed Solutions (Evaluate) Independently develop criteria for success to evaluate design ideas, plans and processes (VCDSCD052) Technologies Context: Analyse how food and fibre are produced when creating managed environments and how they are used (VCDSTC046)
	explore	Denim Bag - construction	Creating Designed Solutions (Producing): Effectively and safely use a broad range of materials, components, tools and equipment to create designed solutions (VCDSCD051)
	evaluate	Denim Bag – Finished Item evaluation	Creating Designed Solutions (Evaluate): Independently develop criteria for success to evaluate design ideas, plans and processes (VCDSCD052)

	engage	Pom pom garland - design an effective colourway for the garland	Creating Designed Solutions (Generate): Generate, develop and test design ideas, plans and processes using ap including graphical representation techniques (VCDSCD050).
9-10	Engage elaborate	Student own choice of clothing garment.	Creating Designed Solutions (Producing):: Effectively and safely use a broad range of materials, components, tools, equip (VCDSCD051)
