

YEAR 8 TEXTILES CURRICULUM 2018

Week	.e ⁵	Class Activity & Learning Focus	Victorian Curriculum Substrand Levels 7-8
1	explore	Cord Keeper – Design Process: draw your designs, make paper templates and cut fabric.	Creating Designed Solutions (Generate): Generate, develop and test design ideas, plans and processes using appropriate technical terms and technologies including graphical representation techniques (VCDSTC050)
	evaluate	Sewing Machine Competency Written Test – review of Year 7	Creating Designed Solutions (Evaluate): Test criteria for success in evaluating processes. (VCDSTC052)
	explore	Sewing Machine Competency Worksheets	Creating Designed Solutions (Producing): Effectively and safely use a broad range of materials, components, tools, equipment and techniques to produce designed solutions (VCDSTC051)
	explore	Cord Keeper – construction using a variety of sewing methods.	
	evaluate	Cork Keeper – Evaluation of finished item.	
3	explore	Tie-Dyed Bag – Design Process: draw your designs in colour	Creating Designed Solutions (Generate): Generate, develop and test design ideas, plans and processes using appropriate technical terms including graphical representation techniques (VCDSTC050)
	explore	Tie-Dyed Bag – Dye the fabric and set the colour.	Creating Designed Solutions (Producing): Effectively and safely use a broad range of materials, components, tools, equipment and techniques to produce designed solutions (VCDSTC051)
4	explore	Tie-Dyed Bag – Sew the drawstring bag using the sewing machine.	
	evaluate	Tie-Dyed Bag – Evaluation of finished item.	Creating Designed Solutions (Evaluate): Independently develop criteria for success to evaluate design ideas, processes and solutions. (VCDSTC046)
5	explore	Research a Designer or Fashion Brand and present findings in a poster format	Technologies Contexts (Technologies and Society): Investigate the ways in which designed solutions evolve locally, nationally, regionally and globally through the creativity, innovation and enterprise of individuals and groups (VCDSTC044)
6	explore	Macramé Pot Plant Holder – Design Process – draw your design	Creating Designed Solutions (Generate): Generate, develop and test design ideas, plans and processes using appropriate technical terms including graphical representation techniques (VCDSTC050)
	explore	Macramé Pot Plant Holder – Construct the holder	Creating Designed Solutions (Producing): Effectively and safely use a broad range of materials, components, tools, equipment and techniques to produce designed solutions (VCDSTC051)
	evaluate	Macramé Pot Plant Holder – Evaluation of finished item	Creating Designed Solutions (Evaluate): Independently develop criteria for success to evaluate design ideas and processes. (VCDSTC046)

	elaborate	Embellished Artwork – Design Process – Draw your design	Creating Designed Solutions (Investigation): Critique needs for designing. Analyse and select from a range of materials, components, tools, equipment and processes to develop design ideas. (VCDSTC049)
7	elaborate	Embellished Artwork – Paint/Colour the design onto fabric and use a variety of resources, including the sewing machine to embellish the design.	Materials and technologies specialisations: Analyse ways to create designed solutions through selecting and combining characteristics and properties of materials, tools and equipment (VCDSTC048) Creating Designed Solutions (Producing): Effectively and safely use a broad range of materials, components, tools, equipment and techniques to produce designed solutions (VCDSTC051)
	evaluate	Embellished Artwork – Final Evaluation of finished item	Creating Designed Solutions (Evaluate): Independently develop criteria for success to evaluate design ideas and processes. (VCDSTC046)
8	explore	Weaving – Plan a tabby weave design using a variety of resources. Construct small woven item.	Creating Designed Solutions (Generate): Generate, develop and test design ideas, plans and processes using appropriate technical terms and technologies including graphical representation techniques (VCDSTC050)
	evaluate	Weaving – Evaluation of finished item	Creating Designed Solutions (Evaluate): Independently develop criteria for success to evaluate design ideas, processes and solutions and their sustainability (VCDSTC046)
9 -10	explore	Own up-cycled item -select from Batik Dying, Pencil Case, Denim Bag, Pom Pom Garland, Pet Bed or own textiles project using recycled resources.	Creating Designed Solutions (Producing): Effectively and safely use a broad range of materials, components, tools, equipment and techniques to produce designed solutions. (VCDSTC051)
	evaluate	Final Evaluation of finished items	Creating Designed Solutions (Evaluate): Independently develop criteria for success to evaluate design ideas, processes and solutions and their sustainability (VCDSTC046)
		Submit Designer/Brands Research Poster
