

Year Level: 7		Subject: Textiles	
Week	Unit	Learning Focus	Victorian Curriculum
1	Stitch Practise	Hand Stitching	Creating Designed Solutions (Producing): Effectively and safely use a broad range of materials, components, tools, equipment and techniques to produce designed solutions (VCDSCD051)
1-2	Felt Pin Cushion or Monster	Design Sewing and Construction Evaluation How to use a sewing machine Sewing Machine Competency Worksheets	Creating Designed Solutions: Generate, develop and test design ideas, plans and processes using appropriate technical terms and technologies including graphical representation techniques (VCDSCD050). Creating Designed Solutions (Producing): Effectively and safely use a broad range of materials, components, tools, equipment and techniques to produce designed solutions (VCDSCD051) Creating Designed Solutions (Evaluate): Test criteria for success in evaluating processes. (VCDSCD052)
3-4	Applique Pencil Case	Design Construct, Insert a zip Applique	Creating Designed Solutions: Generate, develop and test design ideas, plans and processes using appropriate technical terms and technologies including graphical representation techniques (VCDSCD050). Creating Designed Solutions (Producing): Effectively and safely use a broad range of materials, components, tools, equipment and techniques to produce designed solutions (VCDSCD051) Creating Designed Solutions (Evaluate): Test criteria for success in evaluating processes. (VCDSCD052)
5-6	Wool4Schools Competition	Design a multifunctional outfit to meet competition criteria Evaluate wool industry in Australia and the importance for our economy	Technologies Contexts (Technologies and Society): Investigate the ways in which designed solutions evolve locally, nationally, regionally and globally through the creativity, innovation and enterprise of individuals and groups (VCDST044) Creating Designed Solutions (Investigation): Critique needs for designing. Analyse and select from a range of materials and processes to develop design ideas. (VCDSCD049) Technologies Context: Analyse how food and fibre are produced when creating managed environments and how these can become more sustainable (VCDSTC046)
7	Block Printing	Plan two complementary designs for fabric printing Carve designs in soft disc Block printing onto calico to create a placemat or simple bag Evaluate finished item	Creating Designed Solutions: Generate, develop and test design ideas, plans and processes using appropriate technical terms and technologies including graphical representation techniques (VCDSCD050). Creating Designed Solutions (Producing): Effectively and safely use a broad range of materials, components, tools, equipment and techniques to produce designed solutions (VCDSCD051)

			Creating Designed Solutions (Evaluate): Test criteria for success in evaluating processes. (VCDSCD052)
8	Denim Bag	Plan a design using recycled jeans Construction Item evaluation Pom pom garland – design an effective colourway for the garland	<p>Creating Designed Solutions: Generate, develop and test design ideas, plans and processes using appropriate technical terms and technologies including graphical representation techniques (VCDSCD050).</p> <p>Creating Designed Solutions (Producing): Effectively and safely use a broad range of materials, components, tools, equipment and techniques to produce designed solutions (VCDSCD051)</p> <p>Creating Designed Solutions (Evaluate): Test criteria for success in evaluating processes. (VCDSCD052)</p>
9-10	Student Choice	Students own choice of clothing garment	Creating Designed Solutions (Producing): Effectively and safely use a broad range of materials, components, tools, equipment and techniques to produce designed solutions (VCDSCD051)
